

This cross-sectional view shows a central channel region (12) flanked by side regions (13). The channel is defined by a central layer (41) and side layers (42). The side regions (13) are further defined by a layer (15) and a top layer (16). The entire structure is on a substrate (11). The top surface is labeled 43, and the bottom surface is labeled 17. The central channel is labeled 12, and the side regions are labeled 13. The central layer is labeled 41, and the side layers are labeled 42. The side regions are further defined by a layer (15) and a top layer (16). The entire structure is on a substrate (11). The top surface is labeled 43, and the bottom surface is labeled 17.
